

TINY
KITCHENS

2018/19
Product & Accessories Guide
www.tinykitchens.co.uk

Welcome to **TINY KITCHENS**

Established in 2011, Tiny Kitchens is the home of pre-built compact kitchens. With unparalleled knowledge of the UK construction, housing and rental markets, Tiny has created a superb range of units that have durability at the heart of every design.

Tiny Kitchens are manufactured in Germany by master craftsmen utilising a 600,000 sq ft warehouse and workshop with a wide European distribution network to ensure high stock levels, quality of construction and compliance are always kept to the standard you would expect from Tiny Kitchens

The range of compact kitchens are manufactured to fulfil all aspects of modern living – regardless of the space available and the unit's size. As a result, there are no compromises in the construction process.

TINY KITCHENS *Big Ideas for Small Spaces*

Features & benefits:

- Powder coated steel design for superb robustness
- Pre-built design for low installation costs
- Timeless style and design
- Resistance to water ingress for long term durability
- Replaceable components for easy maintenance
- High quality branded appliances for reliable performance

Tiny Kitchens have been installed in projects of all sizes throughout the UK. From individual landlords, to building contractors and architects, the team at Tiny are involved closely with all stages of the supply chain to ensure products are supplied on time and to the exact specification required.

Since 2011 Tiny Kitchens has been redefining the UK market, offering intelligent and practical solutions that always deliver durability, style and flexible design. With an expanding portfolio of products, Tiny is now the home of compact living.

for Small Spaces*

Market sectors

Tiny Kitchens are suitable for a range of domestic and commercial applications, offering complete flexibility for simple specification.

Rented accommodation

Tiny's compact kitchens are perfect for a variety of rental accommodation, from bedsits, loft conversions and studio apartments to larger flats and houses. With a range of sizes, specifications and colours available, private landlords can provide tenants with a high quality and incredibly durable kitchen, without sacrificing style. Whatever the size of property, Tiny has a kitchen to fit.

Workplaces

When space is at a premium in workplaces, Tiny's compact kitchens can provide a facility to store, prepare and cook refreshments on a daily basis. A dedicated station ensures all food and drink is contained within a specific area – allowing easy cleaning and maintenance, as well as reducing any unwanted untidiness. All kitchens in the range also comply with relevant workplace directives.

Student accommodation

Tiny's compact kitchens are perfect for a range of student accommodation, from self-contained studio apartments requiring dedicated cooking and refrigeration facilities, up to larger communal kitchens where additional storage facilities are needed. With a wealth of experience in this market, the team at Tiny Kitchens are able to advise on most effective model for the project.

Five steps to specification

Before choosing a compact kitchen, there are some key considerations that will help define which models are best for a project.

1

Size

Tiny Kitchens come in a range of sizes, including 900, 1000, 1200 and 1500mm versions. If more space is available, 'Bolt-on' products can be specified.

2

Budget

Once a budget is determined for the project, Tiny can advise on the level of specification available and which product ranges are most suitable.

3

Usage

It's important to understand the needs of the end user to ensure the correct specification. Considerations include:

- Are hotplates needed?
- What storage and food preparation space is required?
- Does the sink need to be on the left or right hand side?

4

Appliances

There are a range of appliances available depending on the size of the kitchen. These include solid hotplates, ceramic hotplates, (with or without safety cut out timer), two sizes of solo and combination microwaves, dishwasher and convection oven.

Tiny Kitchens reserves the right to upgrade or source appliances that are of the same or higher quality in the event of models being discontinued.

Studioline | 1200 & 1500mm kitchens

Studioline is an ingenious system that links wall cupboards, splashbacks and side panels to your chosen kitchen - providing a complete kitchen solution that is compact, sleek and simple to install.

The double sided frame is manufactured from brushed stainless steel with the infill panels powder coated to coordinate with the kitchen colour.

The splashback, upper pelmet and lower pelmet are also made from brushed stainless steel.

Wall cupboards are constructed from powder coated steel to match the kitchen.

Cupboard Kitchen | 1200mm

Ideal for offices and workplaces where a kitchen needs to be hidden from view, this pre-built unit offers an all-in-one solution.

Features & benefits:

- Steel cupboard unit in white powder coated finish for durability
- Double-walled doors and sides with bar handles in matt stainless steel for a high quality finish
- Doors with magnetic closures and safety shut-off for hob
- Stainless steel pantry top including built-in bowl, waste kit, a choice of solid hotplates, ceramic hob, induction hob or tea station top, left or right sink
- Heat from electrical appliances is dissipated between the wall and the rear panel
- Metal lower cupboard with drawer, compartment shelf and storage tray
- Two shelves: 1 x fixed & 1 x height adjustable
- Only available in white
- Delivered assembled and ready to plug in for quick & simple installation
- Tall larger cupboard available for additional storage, see page 23

Cupboard options:

- Fridge
- Dishwasher
- Microwave
- Light
- Drawer

Please call Tiny to discuss your specification and cost

Bolt-ons

Every kitchen in the range can be enhanced with a choice of accessories. These integrate seamlessly for a high quality and professional finish.

Wall cupboards

Using the same styling and durable material as the base units, wall cupboards provide an excellent option for kitchens requiring more dry storage.

The doors are honeycomb card filled and fitted with the same brushed stainless steel bar handle as on the standard range of Tiny compact kitchens. For convenience and speed of installation, wall cupboards are delivered pre-built, while each cupboard has an internal adjustable shelf, along with strong wall fixing bolts and soft close hinges.

Code **WC-400** W 400 x D 340 x H 560mm

Code **WC-500** W 500 x D 340 x H 560mm

Code **WC-600** W 600 x D 340 x H 560mm

Code **WC-900** W 900 x D 340 x H 560mm

Code **WC-1000** W 1000 x D 340 x H 560mm

Code **WC-1200** W 1200 x D 340 x H 560mm

Code **WC-1500** W 1500 x D 340 x H 560mm

Coloured wall cupboards are also available to match Tiny's coloured kitchen range.

For microwave wall cupboard, see page 23.

White MFC flat pack wall cupboard to match the Entry & Economy range W 1000mm x D 350mm x H 560mm

Code **BWC-1000**

Pelmets

Tiny Kitchens has a stainless steel pelmet for every size of wall cupboard. The pelmets are three sided, 60mm deep and hide a supplied switched striplight – emitting an attractive light on the kitchen top and splash back.

The pelmets allow for the depth of the Tiny splash backs and are easy to install with the supplied self drilling screws.

Code **PELMET-040** W 400 x D 60 with 2 returns 330mm long

Code **PELMET-050** W 500 x D 60 with 2 returns 330mm long

Code **PELMET-060** W 600 x D 60 with 2 returns 330mm long

Code **PELMET-090** W 900 x D 60 with 2 returns 330mm long

Code **PELMET-010** W 1000 x D 60 with 2 returns 330mm long

Code **PELMET-012** W 1200 x D 60 with 2 returns 330mm long

Code **PELMET-015** W 1500 x D 60 with 2 returns 330mm long

Splash backs

For an extra finishing touch, a brushed stainless steel splash back not only looks great, but is easy to keep clean and maintain.

Measuring 550mm high, they fit perfectly between wall cupboard and base unit, allowing an ideal distance between the electric hotplates and underside of the wall cupboard.

Each splash back has pre-drilled fixing strips both top and bottom and has an enclosed lining for rigidity.

Code **SBS009** W 900 x H 550mm

Code **SBS010** W 1000 x H 550mm

Code **SBS012** W 1200 x H 550mm

Code **SBS015** W 1500 x H 550mm

Wall cupboards
BWC-1000

Extractor fans

Two sizes of extractor are available: 500mm & 600mm wide with wall cupboards to match the size of all kitchens.

Extractors are supplied with an additional stainless steel panel that simply fits between the splash back and base of the appliance – ensuring it is set at the recommended height above the hotplates.

Above the extractor, an L-shaped panel is supplied to complement the adjacent wall cupboard.

Code **EXT500** 500mm wide

Code **EXT600** 600mm wide

The 500mm x 600mm can both extract and re-circulate. The 600mm requires a carbon filter part no. **EK-CF01** whilst the 500mm uses replaceable carbon papers.

Side cheeks

For kitchens with splash backs installed in corner locations, this matching stainless steel panel helps to protect the adjacent wall.

The side cheek is the same height as the splash back, with a depth of 590mm to finish flush with the front of the kitchen.

Code **SBS060** W 590mm x H 550mm

Ceramic hob

A high quality ceramic hob option with safety cut out timer is available on the premium range kitchens.

The ceramic hob sits flush with the stainless steel worktop, providing kitchens with a stylish finish with fast and efficient performance.

When specifying a ceramic hob, simply replace the final letter of your code **K** with a **C**.

Bolt-ons

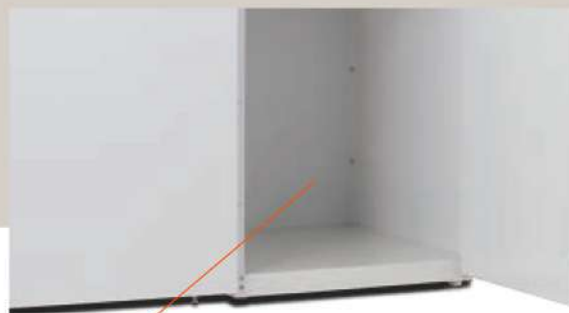

A range of accessories are available to enhance a kitchen's practicality, while still offering superb durability.

Cupboard backs

For quick and simple installation, Tiny Kitchens are not supplied as standard with cupboard backs. However, they are available as an optional extra to hide services and prevent items falling behind the kitchen units.

Code **CB400** 400mm wide

Code **CB500** 500mm wide

Cupboard shelves

For the same reasons as above, Tiny Kitchens are supplied without a shelf. In order to maximise on storage space, a cupboard shelf can be specified to increase the cupboard footprint.

Code **CB400** 400mm wide

Code **CB500** 500mm wide

Cutlery tray

To suit all sizes of drawers.

Code **EK-CT-400** 400mm wide

Code **EK-CT-500** 500mm wide

Code **EK-CT-600** 600mm wide

Code **EK-CT-700** 700mm wide

Pantry tops

The full range of pantry tops are available as a standalone product, supplied with its own waste kit. N.B. Taps can be purchased at an additional cost.

Microwave cupboards - W 600 x H 560 x D 340mm

Where additional cooking facilities are required, the wall mounted microwave unit has been designed to allow the correct ventilation of the built-in 20L microwave with grill, and also to sit along side the Tiny Kitchen wall cupboard range.

Extended worktops & support panels

These worktops are made using high quality brushed stainless steel and are 600mm deep - the same as all compact kitchens.

All tops are lined to give strength and rigidity and, at just 30mm thick, washing machines and other appliances can easily slot underneath. Alternatively, bar stools make it the perfect breakfast bar.

Code **WT065** 650mm wide

Code **WT075** 750mm wide

Code **WT100** 1000mm wide

FAQs

Q: What's in the price?

A: The price listed includes: fridge, tap, waste kit, handles, top, hotplates and, where applicable, microwave, combination microwave oven, dishwasher or oven. There are no hidden extras. The only added cost is your choice of bolt-ons, colour and delivery +VAT. Please call us or visit the website for delivery charges.
(NB: Entry range does not include tap.)

Q: I have very restricted access; can the unit be dismantled for ease of movement?

A: Yes, all the units can be easily dismantled into manageable sections and re-assembled near its fixing position, please consult us for instructions.

Q: Is the kitchen easy to clean?

A: Yes, just use normal non-abrasive household cleaning products and special stainless steel proprietary cleaners for the top and stainless steel range. We recommend regularly cleaning with a sponge and soapy water, finished off with a few drops of baby oil on a dry cloth.
(NB: Always follow cleaning agent instructions.)

Q: How is my kitchen packaged?

A: Every kitchen supplied is securely packaged in a corrugated cardboard box outer with internal preformed polystyrene protective sections. The 1200mm and 1500mm kitchens are mounted on chipboard to help prevent distortion when manoeuvring into position.

Q: Does the kitchen come with a tap?

A: Yes, all our kitchens have a high quality WRAS approved monobloc mixer tap included in the price.
(NB: Entry range does not include tap.)

Q: If we require multiple units can you deliver on time?

A: Yes, we can deliver up to 70 kitchens direct to site at the scheduled times within four weeks of order.

Q: Is the kitchen guaranteed?

A: All Tiny Kitchens are guaranteed for a period of 1 year from date of delivery, therefore please keep your delivery note and invoice as proof of purchase. When a microwave, combination microwave oven, dishwasher, fan oven and extractor is supplied, complete the guarantee registration form enclosed with the unit. If you experience any difficulties, please contact Tiny on: **01254 888198**

Q: How quickly can I take delivery?

A: We hold many models in stock. Following payment we can deliver within three working days or quicker if necessary. If we do not have the specified unit we can normally deliver on site within two weeks (10 working days).

Q: What electrical supply do I need to provide?

A: Every appliance including the hotplate has at least a 1 metre flex and 13amp plug fitted (with the exception of the fan oven). We strongly advise you to consult your electrician regarding the supply requirements. We do provide first fix instructions with socket outlet locations.

The power rating for each is:

Hotplates - **2.2kW**
Ceramic hob - **3kW**
Fan assisted oven - **1.45kW**
30 litre combination microwave - **max 2.6kW**
20 litre combination microwave - **2.4kW**
20 litre solo microwave - **1.2kW**
Compact dishwasher - **2.3kW**
Fridge - **100W**

(NB: Appliances are subject to change, please ask when ordering.)

Q: If we don't want to buy your wall cupboards can you supply matching handles?

A: Yes, we hold handles in stock.

Q: Can I see a unit before making my purchase?

A: Of Course, we have some models on display in our Lancashire Showroom.

Appointments not necessary, and our experts are on hand to advise

Q: Does every kitchen come with a fridge?

A: Yes, every Tiny Kitchen has a 108L fridge, plus a 14L 4* freezer compartment and is compliant with relevant energy legislations. Both our fridge models are A+ and A++ rated.

Q: What happens if any of the appliances fail?

A: We only use branded appliances which all come with a manufacturer's guarantee. If, for any reason, you do experience a problem then simply contact the manufacturer direct, or Elfin, for guidance and help on resolving the problem.

If you experience problems beyond the 1 year guarantee period, we hold a comprehensive range of spares that are easy to fit.

Q: Does the unit come with a waste kit?

A: Yes, every Tiny Kitchen comes with an appropriate waste kit for its needs, however you will need to supply your own waste trap.

Q: The hotplates and taps are very close together, is this safe?

A: The design and construction has undergone and passed European Union safety tests and been issued with a European conformity certificate. A copy can be forwarded upon request.

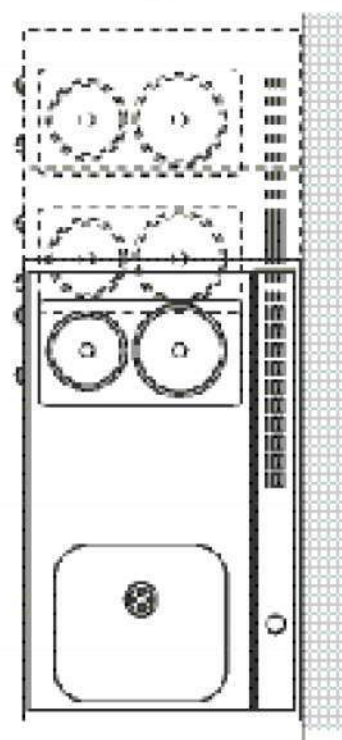

Q: My water supply services come in from a specific side, do I need to modify the kitchen unit?

A: No, the units are handed (left and right), so you can specify the side you require the sink. The sink side has a 50mm void between the unit and wall, which allows plenty of room for both the waste and water supply.
